

PRODUCT INFORMATION

GLOSS MAX

**New gloss polish for car paint
Ready to use**

Article No.: 700644

Description

Perfectly polishes and deepens the color of painted surfaces. The unique composition creates a hydrophobic coating resistant to water and dirt. Once the car paint is treated with GLOSS MAX, it maintains a perfect condition for a long time, which makes it easier to remove dirt at the next wash.

After application and wiping, the preparation does not leave: streaks, holograms, white traces of hard water. GLOSS MAX does not contain abrasives and therefore it is safe for your car body.

Instructions of use

Shake well before use. Apply to previously washed surfaces. Spray and rub with a soft cloth in a circular motion and polish until a uniform coverage is obtained.
